bil in London, droyided, a sufficient number of, w copies to pay the expense of publication are subcopy, and it is estimated that it will equire a autherintion list of 120 copies to liquidate thates outlay of engraving, do. Any surplus which may it to left will be desored to Missiquery proposes. Subscriptions are bereby solicited. The scope of this Map embraces an area of

about Furly Pays miles from North to South and TINE Black Atpaca and Merine Sack and of about Sixty miles from East to West that is to say the Histrics of Sun on whereof Nametas, were nd is the departmental town. It is within the distriet of Sun-on that Congliong andlis dependencies stout prior to their cersion, and the whole. Coast line for many miles adjacent is under the jurisdiction of the Mandarimat Nam-tao: (1914) Fig. The Map is the result of four years //abor, and is made cutirely from the personal beervations of the puther. The dangers, the difficulties, and the the hard hips which the work has mouleed, have heen very great, The district in excessively mountainous and as occular demonstration had explusively in all cases to be refied on the reason of the morthloseness of native information, the futigue attending travel has been as light matter. The villagers entertain the idea that their mountains contain surjoyous deposits, and are very jectous of foreigners examining them. The consquence is that there, is much difficulty in propuring the services of guides, and still more offiunity in obtaining correct information on any point. In fees the idea above alluded to proves strong incentive to the conveyance of fulse information, and excites resistance to the progress of the traveller, besides creating great personal Under these circumstances this Man has been

> thor that it is a pity the result of so mach labor. progress, be concealed from the world. Science: But in a local and a directly additioning point of view, the author, is coonraged to believe that his work should not be placed as a candle under a ... bushel. This went thy and most important Colony seems to betoken a feeling in rear of the age, that the topography of the immediate neighbourhous should be a initiar of periest indifference. To the muturation the graveller, the spectemen, and " the Missionary, the information should be acceptable, to say thathing of its political value of the sides, for pelice nurposes in donling with the all prevailing evil of piracy, when the subtlety of the Mandarin is considered, the author cannot doubt -the value of his work to the British authorities. He therefore cally attention to his Map, and solicits the favor of subscriptions to enable him, to
